 Registered Cosmetic Ingredient
 pH 2.0~9.0
 Adsorption & Elimination
 Colorless, Odorless, Non-toxic
 Application Range: Cosmetics, Hair Care,
 Body Care, Medicinal Liquid Plasters,
 Deodorizers, Other Daily Use Products

Illite Powder

100% Clay Mineral:
 Registered Cosmetic Ingredient
 Recommended Content: Around 20%
 Particle Size: 1,000 Mesh
 Beige, Odorless
 Application Range: Cosmetics, Medicinal Patches,
 Livestock Manure Odor Removal, Animal Feed Supplements,
 Health Care Devices, Other Lifestyle Garments

Efficacy of Illite

Far-Infrared Ray Emission

Emits far-infrared rays with
 wavelengths of 4~1,000µm,
 maintaining the freshness of
 vegetables and fruits, and
 activating cells

Removal of Heavy Metal/ Harmful Gas

Absorbs harmful heavy metals like Pb,
 Ni, Cs, Ti, etc.

Elimination of Sources of Environmental Pollution

Lowers BOD, COD in water
 environments, enhancing water
 quality

Skin Waste Removal

Utilizes its porous properties to absorb
 and eliminate skin impurities

Features of Sparassis Crispa

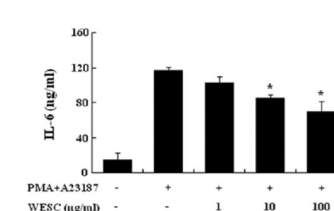

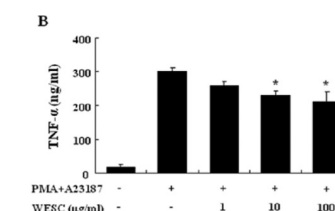

Grows in High Altitudes Above 1,000m
 Known for its unique appearance, commonly referred to as
 the "Cauliflower Mushroom"
 Cultivated in regions like Korea, Japan, the USA, and Australia
 A fantastic mushroom, used as a premier culinary ingredient
 in France

Anti-Inflammatory Effect

Sparassis crispa extract reduces
 the expression of inflammatory
 substances like TNF- α , IL-6 in a
 concentration-dependent manner

PMA+A23187: Anti-inflammatory
 inducing substances
 WESC: hot water extract of Sparassis
 crispa

Active Ingredients

High Beta-Glucan Content

▼ β -Glucan Content: Notable in Bearded Tooth Mushroom

VEGAN, CLEAN BEAUTY

Sparassis Crispa Toner

Due to the popularity of the Sparassis Crispa Serum and demand from dermatologists and customers for a larger size, we created this intensive moisturizing Sparassis Crispa Toner. Contains 45% Sparassis crispa extract and a blend of 11 types of Hyaluronic Acid, providing excellent moisturization and soothing without stickiness. Especially great for post-laser and other skin treatments, this toner is certified non-irritating

Sparassis Crispa Serum

A serum made solely from Flower Mushroom extract, popularized through word-of-mouth and sold in dermatology clinics and duty-free shops. Contains 43.6% Beta-Glucan, making it highly effective for calming atopy and acne. Known as the "3-day, 7-day Serum"

Sparassis Crispa 3-Piece Gift Set

A popular three-item basic gift set of Sparassis crispa products

ONE SEED Sparassis Crispa Intensive Soothing Mask Pack

A high-moisture mask pack for wrinkle improvement
Focused mask pack for anti-inflammatory and calming effects
Contains 8 types of Hyaluronic Acid
Uses first-grade biodegradable sheets
Vegan manufactured

ONE SEED Retinal Cream

A fast-acting wrinkle improvement cream
Functional retinal
Crafted using micro-liposome technology with Retinol esters and Adenosine
Provides advanced wrinkle care with a luxurious texture

ONE SEED Power Up Sun Cream

BB cream, sunscreen, and sun cushion all in one, providing hydration, soothing, tone-up, radiant finish, and minimal eye irritation. Powered up with a lightweight, non-heavy, and light sunscreen

Sparassis Crispa Ceramide Cream

A luxurious Ceramide Cream featuring Flower Mushroom extract and a blend of five real ceramides
Designed to improve skin barrier function, this cream is non-irritating and leaves no white cast
Fragrance-free for a pure skincare experience

Daily Chemical Product

Our living spaces are subjected to complex chemical reactions due to fine dust, odors, and various pH levels.

Illite, with its porous structure, instantly adsorbs pollutants upon contact and rapidly neutralizes them through cation exchange.

Prevents stickiness and secondary odors.

DAILY LIFE CHEMISTRY

Sandeul Sandeul Any Fresh Sanitizer and Deodorizer, 500ml
OEM Manufactured Product

Produced in collaboration with BMYPET
Safe to ingest, mildly acidic formulation
Combines hypochlorous acid and Illite for simultaneous sterilization and odor elimination
Popular product on a YouTube platform with 240,000 subscribers

BEAUTY DEVICE

A lightweight rechargeable scalp care device weighing only 350g!
Utilizing microcurrents for a healthy scalp activation, stress relief, and muscle relaxation.

Near-Infrared LED penetrates deep into pores, generating nitric oxide, promoting blood vessel expansion, and enhancing blood circulation.

It's rechargeable, lightweight, and designed with ergonomic precision.

With three-stage microcurrent electrodes, Near-Infrared LED, and targeted acupressure scalp massage for ultimate relaxation

BEAUTY DEVICE

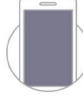

-   Three-stage microcurrent electrode
-   Near-Infrared LED
-   Scalp Acupressure massage (acupressure points)

Personal Near-Infrared LED Scalp Care Device

Lightweight, rechargeable scalp care device weighing just 350g!
Activates a healthy scalp and relieves stress through microcurrents, muscle relaxation
Near-Infrared LED penetrates deep into the pores, enhancing blood flow through the generation of nitric oxide
Rechargeable, lightweight, ergonomic design

-   Microcurrent electrode
-   Three-stage powerful vibration massage
-   Near-Infrared LED

Professional Near-Infrared LED Scalp Care Device

Compact scalp care device for professional and home use
Built-in Near-Infrared LED for deep scalp cleansing
Three powerful vibration settings for scalp massage, muscle relaxation, and stress relief
Three-pulse microcurrent for scalp vitality. Can be used with shampoo in professional salons
Specialized scalp care/treatment for hair loss. Improves blood circulation in the scalp through microcurrents

Hyper Lux Ultrasound Equipment

Easy operation with a large screen
One probe for all skin treatments - select the output mode on the monitor
Ergonomic design reduces strain on the practitioner's joints
Compact and easy to move and maintain, weighing only 1/10th of conventional German equipment
Clinically proven by the American Academy of Dermatology for effective treatment of wrinkles, rosacea, acne, and atopy
Ultrasound equipment
